

Envision 2.0 Faculty Survey Results: Academic and Co-Curricular Innovations

Questions	Responses	Least important	Slightly important	Very important
Develop an inter- and intra-departmental hub for teaching, scholarship, scholarly activities, and service.	N=72	N=24 33%	N=19 26%	N=29 40%
Develop and ensure equitable resources across the department and the college.	N=92	N=44 48%	N=29 32%	N=19 21%
Provide opportunities for experiential learning throughout the four undergraduate years at SFA.	N=103	N=21 20%	N=41 40%	N=41 40%

Comments

If you want faculty to engage more with students provide faculty free access to the rec center and other perks like other universities do - this would also help with the low morale...

I don't care what other departments are doing and I don't want them telling me how to run my program.

We need more separation, not wasted time interacting.

Once again, all of these are of equal importance and should be implemented.

Resources should be determined based on revenue generated..... more SCH = more resources /

Why the focus on only undergraduate?

Faculty cannot innovate if they do not know which teaching methods research

Findings indicate are effective. First get the faculty using effective teaching methods, then focus on innovative teaching.

Meaning unclear as to "hub."
